

The main evacuation site if a big earthquake occurred

In order to protect the life of the citizens from the big fire in the city if the earthquake occurred, the Tokyo Metropolitan Government has a regulation on taking precautions against the disaster by designating evacuation sites on every city/ward. There are about 200 designated places, but here, only the main evacuation sites are introduced. It is better if everybody knows beforehand the evacuation sites near their homes.

■ The main evacuation site
if a big earthquake occurred
